

Kalmar Pilaster

Stone radiator

Exceptional and captivating form, bringing to mind an elegant pilaster, rather than a radiator. It will perfectly blend into stylish interiors, complementing them. In modern ones it will add a hint of eclecticism and humour. Always surprising with class.

Classicistic column which can be used separately and in series. Multiplied in several places, it may constitute a stylish frame for windows, doors or other important interior elements. Thanks to the additional options to mount one or several stylish hangers, it is perfectly suited for kitchens, halls, toilets, bathrooms and spa rooms.
