Radiator base - white semi mat

+ printing from Kalmar catalog, or printing photos from a customer

ABOUT PHOTOGRAPHERS

Leszek Szurkowski

Photographer, photo-illustrator, designer and author. Currently a professor at the Academy of Humanities and Economics in Lodz and a lecturer at the Nikon Academy.

His works were published, among others, in "Graphis Photo", "Communications Art Magazine", "Graphic Excellence USA", "Studio Magazine", "Masters of Photography", "APA Awards Book", "How", "Applied Arts" and "Photo District News".

Since 1964 he has participated in over 150 national and international exhibitions. In the years 1965 - 2015 he completed 60 solo exhibitions.

Krystian Bielatowicz

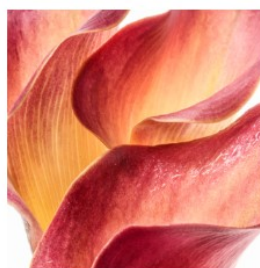

Photographer, filmmaker, archaeologist. He specializes in social photojournalism and street photography. He is also among the faculty of the Nikon Academy.

His photographs were published in, among others: "Newsweek Poland", "Polish National Geographic", "National Geographic Traveler", "The Virginia Quarterly Review" (USA), "Private Magazine" (Italy), "El Comercio" and "Caretas" (Peru).

He presented his works at exhibitions, among others: in New York, Peru and the Leica Gallery in Warsaw.

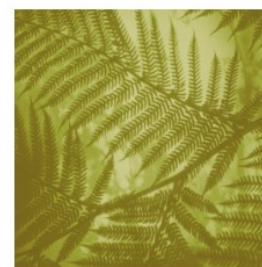

MAGIC OF PHOTOGRAPHY

If you decide to get Kalmar Unica radiator with a unique photograph from Leszek Szurkowski or Krystian Bielatowicz collection, consider buying collector photos by the same author. This way you will emphasize the uniqueness and originality of your choice. The radiator, as a large painting on your wall, will correspond to the photographs exposed elsewhere in the same room. You will create a unique collection and unique interior.

CUSTOM COLOUR SELECTION

If you want your interior to be perfectly matched in terms of colour, select any picture from Leszek Szurkowski collection and order custom colour selection service. This service will let you perfectly match Kalmar Unica radiator to other interior elements.

KALMAR UNICA WITH YOUR PICTURE

Deliver a file with your photo and remember every day of what is important to you.

Technical Guidelines for printing your own photos on Kalmar Unica radiators

Minimum resolution: 100 dpi

Optimum resolution: 180 dpi

CMYK, ink limit 300%, preferably TIF

bleed 5 mm, i.e. for the radiators:

UNI-180-065 – the proper dimensions of the file are as follows: height 181 cm / width 66 cm

UNI-160-120 – the proper dimensions of the file are as follows: height 61 cm / width 121 cm

UNI-100-100 – the proper dimensions of the file are as follows: height 101 cm / width 101 cm

UNI-120-120 – the proper dimensions of the file are as follows: height 121 cm / width 121 cm

There are three types of images in our catalog: **vertical, horizontal and square.**

Below, in this file you can find only their square miniatures.

You should choose image according to proportions of a selected radiator.
